PayRange®

Introducing
BluKey PayStation™ XL

BluKey PayStation XL

Installation Guide

BluKey PayStation XL

Welcome to your new BluKey PayStation XL. PayStation, our connected room solution, enables your customers to conveniently use any PayRange enabled machine nearby, without the need for a phone or PayRange account. The BluKey PayStation XL streamlines the entire payment process, allowing users to complete their transactions directly on the PayStation.

Use this guide to install your new BluKey PayStation XL. We designed setup to be completed within 30 minutes with intuitive, simple packaging and easy-to-follow instructions.

Before Getting Started

✓ Make certain your machines are equipped with a PayRange BluKey.

✓ Make sure there is a stable and adequate internet connection in the room you will be installing the PayStation.

✓ Ensure a 110V outlet is available to power the PayStation.

Getting Started

IMPORTANT: PayRange BluKey PayStation XL service requires data connection. Prior to installation, verify location has adequate cellular reception. If a mobile web browser can load a website relatively quickly, data connection should be adequate.

Prepare PayStation

1 Carefully remove the BluKey Connect and BluKey PayStation XL from their packaging.

2 Plug in the power cord and antenna to the back of the PayStation XL (Fig. 1).

3 If using an internet or cellular connection, connect the ethernet cable from the ethernet router or cellular modem to the ethernet port located on the back of the PayStation (Fig 1).

4 Remove the mounting bracket attached to the back of the PayStation by unscrewing the two screws from the bottom sides of the bracket (Fig 1).

5 Screw the mounting bracket to the wall using the included mounting hardware (Fig. 2).

Best practice is to **install** the BluKey PayStation next to the laundry room **change machine.**

Getting Started

6 Plug the power cord into a 110V outlet and power on the PayStation XL by pressing the power switch located next to the power cord. Ensure the PayStation powers ON and the home screen is displayed (Fig 3).

7 Attach the included back panel cover to the back panel window using the two screws provided (Fig. 3).

8 Attach the PayStation XL to the mounting bracket that was previously mounted to the wall in the previous step (Fig. 4).

**9** Follow the on-screen instructions for the remaining installation and set-up.
